Qualitatives

Indicator	Description
Registration	Some of our games and platforms use filters specifically developed for and integrated into our platforms. These filters check users’ text input against a list of banned words and, where necessary, prevent registrations—such as the creation of accounts or guilds—containing such words.
Chats / messaging systems	Some of our games and platforms use filters specifically developed for and integrated into our platforms. These filters check users’ text input against a

	list of banned words and, where necessary, prevent the text from being displayed in the chat or messaging system.
Safeguards applied to the use of automated means	Users experiencing problems may contact the company's internal support team at any time. The lists of banned words can be monitored, edited, and supplemented. Changes and new manifestations of potentially prohibited or illegal content are identified and recorded.
